Independent Auditor's Report

Honorable Royking Potter, Mayor and Members of the City Council City of Shallowater, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, and each major fund of the City of Shallowater, Texas (the City), as of and for the fiscal year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of the City of Shallowater, Texas, as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flow thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedule of changes in the plan's net pension asset/liability and related ratios, schedule of contributions for the retirement plan, schedule of changes in the total OPEB liability and related ratios, and budgetary comparison information on pages 33 through 38 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 7, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering of the City's internal control over financial reporting and compliance.

RECONCILIATION OF THE GOVERNMENTAL FUND BALANCE SHEET TO THE STATEMENT OF NET POSITION SEPTEMBER 30, 2021

Total Fund Balances - Governmental Fund Balance Sheet	\$ 3,183,174
Amounts reported for governmental activities in the Statement of Net Position (SNP) are different because:	
Net capital assets used in governmental activities are not reported in the funds.	2,147,954
Payables for debt principal which are not due in the current period are not reported in the funds.	(674,991)
Property taxes receivable unavailable to pay for current period expenditures are deferred in the funds.	13,095
Accrued compensated absences are not due and payable in the current period and therefore are not reported in the funds.	(50,529)
Total OPEB Liability and Related Deferred Inflows and Outflows are not reported in the funds.	(23,640)
Net Pension Asset/Liability and Related Deferred Inflows and Outflows are not reported in the funds.	 17,043
Net Position of Governmental Activities - Statement of Net Position	\$ 4,612,106

Exhibit 6

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2021

Net Change in Fund Balances - Total Governmental Fund	\$	293,450
Amounts reported for governmental activities in the Statement of Activities (SOA) are different because:		
Governmental funds report capital outlay as expenditures. However, the Statement of Activities reports these as assets that are depreciated over their useful lives.		319,279
Depreciation is recorded in the Statement of Activities as an expense but not in governmental funds.		(224,062)
Certain property tax revenues are deferred in the funds. This is the change in these amounts this year.		(561)
Repayment of debt principal is an expenditure in the funds but is not an expense in the SOA.		37,550
Accrued compensated absences are recorded in the statement of activities as an expense but not in governmental funds.		(50,529)
OPEB Expense is not accrued in the funds related to the Total OPEB Liability and Deferred Outflows.		(2,163)
Pension Expense is not accrued in the funds related to the Net Pension Asset and Deferred Outflows.	_	27,352
Change in Net Position of Governmental Activities - Statement of Activities	\$_	400,316

-13-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Shallowater, Texas (the City) operates under a Council-Manager form of government. The City's major operations include police and fire protection, sanitation and recreation, public works, and general administrative services. In addition, the City owns and operates a water and sewer system.

The City's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

A. REPORTING ENTITY

These financial statements present the City (the primary government). GASB Statement No. 61, The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34 identifies criteria for determining if other entities are potential component units that should be reported within the City's basic financial statements. The application of these criteria provides for identification of any entities for which the City is financially accountable and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's basic financial statements to be misleading. The City does not have component units.

B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's general fund). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The City's police and fire protection, sanitation and recreation, public works, and general administrative services are classified as governmental activities. The City's water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities are presented by column and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts – invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The City first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the City's functions and business-type activities (police, fire, public works, etc.). The functions are also supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits, and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating and capital grants.

-14-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

Program revenues must be directly associated with the function (fire, public works, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, sales or franchise taxes, intergovernmental revenues, interest income, etc.).

The City does not allocate indirect costs.

This government-wide focus is more on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activities.

C. BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The City applies GASB Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. Fund balances are classified as follows:

<u>Nonspendable</u> - Amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

<u>Restricted</u> - Amounts that can be spent only for specific purposes because of the City Charter, City Code, state or federal laws, or externally imposed conditions by grantors or creditors.

<u>Committed</u> - Amounts that can be used only for specific purposes determined by a formal action by City Council ordinance or resolution.

<u>Assigned</u> - Amounts that are constrained for a specific purpose by an individual that has been delegated authority by the City Council to assign amounts.

Unassigned - All amounts not included in other spendable classifications.

For the fiscal year ended September 30, 2021, \$3,165,920 of the City's fund balance was unassigned and \$17,254 was restricted for enabling legislation. The City would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserve the right to selectively spend unassigned resources first to defer the use of these other classified funds.

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund balance, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

-15-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

The following fund types are used by the City:

1. Major Governmental Fund:

The focus of governmental fund measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

General fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

2. Major Proprietary Fund:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The accounting principles generally accepted in the United States of America applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the City:

Water and Sewer fund accounts for the revenues and expenses associated with providing water and sewer service to the citizens of the City.

D. BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

1. Accrual:

Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

-16-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

E. FINANCIAL STATEMENT AMOUNTS

1. Cash and Cash Equivalents:

Cash and Cash Equivalents include cash in bank and certificates of deposit for cash flow purposes.

Certificates of Deposit are stated at fair value (quoted market price or the best available estimate).

Certain amounts of the City's assets are restricted for the following purposes:

Restricted Assets:

Water and Sewer Fund:

Certificate of Deposit - Collateral for Note Payable	\$	69,997
Cash - Bond Escrow	_	408,774
Business-Type Restricted Cash and Equivalents	\$	478,771

2. Receivable Balances:

Receivables for the City's individual funds, including the applicable allowances for uncollectible accounts, are as follows for the year ended September 30, 2021:

		General Fund		Water and Sewer Fund	Total
Receivables:			_		
Property Taxes	\$	53,671	\$		\$ 53,671
Franchise Taxes		39,595			39,595
Ambulance		50,511			50,511
Other		27,385		215	27,600
Customer Accounts				416,274	416,274
Gross Receivables	\$	171,162	\$	416,489	\$ 587,651
Less: Allowance for Uncollectibles		(69,101)	_	(207,266)	 (276,367)
Net Total Receivables	\$_	102,061	\$_	209,223	\$ 311,284

3. Property Taxes:

The value of all real and business property located in the City is assessed annually on January 1 in conformity with Subtitle E of the Texas Property Code. Property taxes are levied on October 1 on those assessed values, and the taxes are due on receipt of the tax bill and are delinquent if not paid by February 1. On the following January 1, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

-17-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

4. Capital Assets:

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	25 - 40 years
Water and Sewer Systems	15 - 40 years
Machinery and Equipment	3 - 20 years
Automotive	7 - 20 years

5. Revenues:

Substantially all governmental fund revenues are accrued. Property taxes are billed and collected within the same period in which the taxes are levied. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non-operating revenue based on GASB No. 33. In applying GASB No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

6. Expenditures:

Expenditures are recognized when the related fund liability is incurred.

7. Compensated Absences:

The City accrues accumulated unpaid vacation and sick leave and associated employeerelated costs when earned (or estimated to be earned) by the employee.

8. Deferred Outflows of Resources and Deferred Inflows of Resources:

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time.

-18-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

9. Interfund Transactions:

Interfund transactions are reflected as either loans, services provided, reimbursements, or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances". Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

Transfers and receivables to and from other funds consist of the following at September 30, 2021:

A mount

|--|

		Amount
Payable	Receivable	 Payable/Receivable
Water and Sewer	General Fund	\$ 1,099,551

The Interfund Balance is used to account for sanitation revenue received in the Water and Sewer Fund bank account that is due to the General Fund and other miscellaneous Interfund Balances. The entity transfers the balance between cash accounts to relieve the liability or receivable.

During the year ended September 30, 2021, the City transferred \$140,000 from the General Fund to the Water and Sewer Fund to cover debt service payments.

2. DEPOSITS AND INVESTMENTS

The City's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the City's agent bank approved pledged securities in an amount sufficient to protect the City's funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

-19-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. Cash Deposits:

At September 30, 2021, the City's cash deposits were \$5,659,367 with a bank balance of \$5,682,412. The City's cash deposits at September 30, 2021 and during the year then ended were entirely covered by FDIC insurance or by pledged collateral held by the City's agent bank in the City's name.

2. Analysis of Specific Deposit and Investment Risks

GASB requires a determination as to whether the City was exposed to the following specific investment risks at year end and, if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. At year end, the City's investments were not exposed to credit risk.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the City's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the City's name. At year end, the City was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City had no investments representing more than five percent of total investments.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the City was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

4. WATER RIGHTS

On January 25, 2013, the City purchased water rights at a cost of \$330,211. The depletion will begin when the City begins pumping water. The City had a study done to determine the ground water capacity. This study will be used to determine the amount to amortize once the City begins to pump water. As of September 30, 2021, the City had not pumped any water from this location.

On April 28, 2015, the City purchased water rights at a cost of \$488,682. The City is currently pumping water from the wells associated with the water rights and based on a study done, the City should be able to use these wells through the year 2065. The City is amortizing the cost of the water rights over 50 years and amortized \$9,774 during the year ended September 30, 2021.

5. LONG-TERM OBLIGATIONS

Governmental Long-Term Obligations:

Note Payable

On January 29, 2016, the City borrowed \$1,000,000 from Peoples Bank at an interest rate of 3.25% to be paid in annual installments through February 15, 2034. The proceeds of the loan were used for city streets. The unpaid balance at September 30, 2021 is \$674,991.

Business-Type Long-Term Obligations:

General Obligation Bonds

In 2012, the City issued General Obligation Bonds totaling \$4,100,000. Proceeds from this issue are to be used for Water and Sewer improvements. This debt carries an interest rate of 1.70% - 4.32% and matures in 2031. The bonds constitute direct obligations of the City, payable from a combination of (1) the levy and collection of a direct and continuing ad valorem tax on all taxable property within the City and (2) a pledge of surplus net revenues of the City's Waterworks and Sewer System.

Combination Tax and Surplus Net Revenue Certificates of Obligations

In January 2019, the City issued Series 2019A and Series 2019B combination tax and surplus net revenue certificates of obligation. The total amount of certificates of obligation issued totaled \$2,000,000. The Series 2019A certificates mature in February 2049 and the debt carries an interest rate of 1.97% to 4.34%. The Series 2019B certificates mature in February 2049 and the debt carries an interest rate of 0%. The proceeds of these issues will be used to finance water system improvements.

The following is a summary of outstanding general obligation bonds and certificates of obligation activity for the year ended September 30, 2021, and the principal and interest requirements for the next 12 months.

CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

Notes Payable

On August 18, 2013, the City borrowed \$530,000 from Happy State Bank at an interest rate of 4.50% to be paid in annual installments through March 15, 2034. The proceeds of the loan are to be used for water and sewer improvements. The unpaid balance at September 30, 2021 is \$344,261.

On April 28, 2015, the City borrowed \$547,558 from Peoples Bank at an interest rate of 2.95% to be paid in annual installments through April 1, 2030. The proceeds of the loan were used to purchase water rights. The unpaid balance at September 30, 2021 is \$355,623.

On July 15, 2020, the City borrowed \$900,000 from AIM Bank at an interest rate of 3.5% to be paid in monthly installments of \$8,922 through July 15, 2030. The proceeds are to be used for water projects. On September 30, 2021, the City refinanced the AIM Bank loan with Citizens Bank. The loan has an interest rate of 3.25% and matures on November 15, 2030. The unpaid balance at September 30, 2021 is \$813,171.

6. PENSION PLAN

Plan Description

The City participates as one of 895 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

-24-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

All eligible employees of the city are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits, with interest, were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75.00% of the member's deposits and interest.

Currently, the City has adopted the following provisions related to the pension plan:

_	December 31, 2020
Employee Deposit Rate	6.00%
Matching Ratio (City to Employee)	1.5 to 1
Years Required for Vesting	5
Service Requirement Eligibility	
(Expressed as Age / Years of Service)	60/5,0/20
Updated Service Credit	100%
Annuity Increase (to Retirees)	0% of CPI

Employees Covered by Benefit Terms

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	1
Inactive Employees Entitled to But Not Yet Receiving Benefits	14
Active Employees	15
Total Plan Employees	36

Contributions

The contribution rates for employees in TMRS are either 5.00%, 6.00%, or 7.00% of employee gross earnings, and the city matching percentages are either 100.00%, 150.00%, or 200.00%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

-25-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

Employees for the City were required to contribute 6.00% of their annual gross earnings during the fiscal year. The required contribution rates for the City were 4.56% and 4.57% in calendar years 2020 and 2021, respectively. The City's contributions to TMRS for the year ended September 30, 2021, was \$33,052.

Net Pension Asset/Liability

The City's Net Pension Asset/Liability (NPAL) was measured as of December 31, 2020, and the Total Pension Liability (TPL) used to calculate the Net Pension Asset/Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

Inflation 2.50% per year Overall Payroll Growth 2.75% per year

Investment Rate of Return 6.75%, net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees are used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive).

-26-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected Real
Asset Class	Target Allocation	Rate of Return (Arithmetic)
Global Equity	30.00%	5.30%
Core Fixed Income	10.00%	1.25%
Non-Core Fixed Income	20.00%	4.14%
Real Return	10.00%	3.85%
Real Estate	10.00%	4.00%
Absolute Return	10.00%	3.48%
Private Equity	10.00%	7.75%

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in Net Pension Asset/Liability

	Pe	Total ension Liability	_	Plan Fiduciary Net Position	<u>(</u> ,	Net Pension Asset) / Liability

-27-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

The following presents the Net Pension (Asset)/Liability of the City, calculated using the discount rate of 6.75%, as well as what the City's Net Pension Liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

1% Decrease		Current Rate Assumption		1% Increase
\$ 180,960	\$	(52,747)	\$	(248,151)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

Pension Expense, Deferred Outflows, and Deferred Inflows related to Pensions

For the year ended September 30, 2021, the City recognized pension income of \$8,060 and calculated as shown below:

Total Service Cost	\$ 73,835
Interest on the Total Pension Liability	105,847
Employee Contributions (Reduction of Expense)	(40,755)
Projected Earnings on Plan Investments (Reduction of Expense)	(110,930)
Administrative Expense	807
Other Changes in Fiduciary Net Position	32
Recognition of Outflow (Inflow) of Resources-Liabilities	(19,983)
Recognition of Outflow (Inflow) of Resources-Assets	 (16,913)
Total Pension Expense (Income)	\$ (8,060)

At September 30, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows/(Inflows) of Resources - Pension Plan	Plan Yea	<u>r</u> _	Amount	Remaining Amortization Period
Employer Contribution Deferrals	2020	\$	23,308	1.000

Difference in Assumptions	2019		6,065	2.620
Total Deferred Outflows/(Inflows) of Resources		\$	(27,024)	

-28-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Plan Year	nortization of Outflows/Inflows
2021 2022 2023 2024 2025	\$ (2,842) 1,015 (22,436) (2,761)
	\$ (27,024)

7. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description:

Texas Municipal Retirement System (TMRS) administers a defined benefit group-term life insurance plan known as the Supplemental Death Benefits Fund (SDBF). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an OPEB and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan.

The member city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers.

Benefits Provided:

The plan provides a \$7,500 post-retirement death benefit to beneficiaries of service retirees and disability retirees of employers that have elected participation in the SDBF. The OPEB benefit is a fixed \$7,500 lump-sum benefit and no future increases are assumed in the benefit amount.

The SDBF fund does not meet the requirements of a trust under Paragraph 4b of GASB No. 75, as the assets of the SDBF can be used to pay active SDBF benefits which are not part of the OPEB plan. The contributions for retiree SDBF coverage are assigned to the OPEB plan under GASB 75 and are used to determine the benefit payments shown in the changes in the total OPEB liability.

-29-

CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

Benefit terms are established under the TMRS Act. Participation in the retiree SDBF is optional, and the employer may elect to opt out of (or opt into) coverage as of Jan. 1 each year. The City's contribution rate for the retiree SDBF program is calculated annually on an actuarial basis, and is equal to the cost of providing a one-year death benefit equal to \$7,500.

Employees Covered by Benefit Terms:

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	4
Inactive Employees Entitled to but not Yet Receiving Benefits	1
Active Employees	15
Total Plan Employees	20

Total OPEB Liability:

The City's total OPEB liability of \$40,676 was measured as of December 31, 2020 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions:

The total OPEB liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Actuarial Cost Method	Entry Age Normal
-----------------------	------------------

Amortization Method

Recognition of Economic/Demographic

Gains and Losses and Assuptions Straight-Line Amortization over Expected Working Life

Inflation 2.5%

Salary Increases 3.5% to 11.5% including inflation

Discount Rate 2.00% Retirees' Share of Benefit-Related Costs \$0

Administrative Expenses All administrative expenses are paid through the Pension Trust and

accounted for under reporting requirements under GASB Statement

No. 68.

Mortality rates – Service Retirees 2019 Municipal Retirees of Texas Mortality Tables. The rates are

projected on a fully generational basis with scale UMP.

Mortality rates – Disabled Retirees 2019 Municipal Retirees of Texas Mortality Tables with a 4 year

setforward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for

future mortality improvements subject to the floor.

-30-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

The TMRS SDBF is treated as unfunded OPEB plan because the SDBF trust covers both actives and retirees and the assets are not segregated for these groups. Under GASBS No. 75 (paragraph 155), the discount rate for an unfunded OPEB plan should be based on 20-year tax-exempt AA or higher Municipal Bonds. Therefore, a discount rate of 2.00% was used based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2020.

Annuity Purchase Rates:

Annuity purchase rates are used to determine the amount of the monthly benefit at the time of retirement for both healthy and disabled annuitants. The annuity purchase rates (APRs) for 2014 are based on the UP-1984 Table with an age setback of two years for retirees and an age setback of eight years for beneficiaries. Beginning in 2027, the APRs will be based on a unisex blend of the RP-2000 Combined Healthy Mortality Tables with Blue Collar Adjustment for males and females with both male and female rates multiplied by 107.5% and projected on a fully generational basis with scale BB. For members, a unisex blend of 70% of the males table and 30% of the female table is used, while 30% of the male table and 70% of the female table is used for beneficiaries. From 2015 through 2026, the fully generational APRs will be phased into.

Experience Studies:

Actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. For determining the amount of the monthly benefit at the time of retirement for both healthy and disabled annuitants, the annuity purchase rates (APRs) until 2027 are based on a mortality study performed in 2013. TMRS uses the experience studies as a basis for determining assumptions, except where required to be treated different by GASB 75.

Changes in the Total OPEB Liability:

Balance as of December 31, 2019	\$ 36,232
Changes for the year:	
Service Cost Interest on Total OPEB Liability Changes in Assumptions Differenc between expected and actual Benefit Payments	2,377 1,026 5,133 (3,888) (204)
Balance as of December 31, 2020	\$ 40,676

Changes of assumptions or other inputs reflect a change in the discount rate from year to year.

There were no changes of benefit terms that affected measurement during the measurement period.

-31-CITY OF SHALLOWATER, TEXAS

NOTES TO FINANCIAL STATEMENTS

Sensitivity Analysis:

The following presents the Total OPEB Liability of the employer, calculated using the discount rate of 2.00%, as well as what the Total OPEB Liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.00%) or 1 percentage point higher (3.00%) than the current rate. Note that the healthcare cost trend rate does not affect the Total OPEB Liability, so sensitivity to the healthcare cost trend rate is not shown.

	1%	Decrease in			1% Increase in
	Discour	nt Rate (1.00%)	Discou	nt Rate (2.00%)	 Discount Rate (3.00%)
Total OPEB Liability	\$	48,884	\$	40,676	\$ 34,038

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended September 30, 2021, the City recognized OPEB expense of \$4,203. At September 30, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		Deferred Outflows of Resources				Deferred Inflows of Resources
Differences Between Expected and Actual Experience Changes in Assumptions Contributions Made Subsequent to	\$	8,963	\$	4,426		
Measurement Date		459				
	\$	9,422	\$	4,426		

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to OPEB benefits will be recognized in OPEB expense as follows:

		OPEB Expense Amount
2021	\$_	1,259
2022		800
2023		800
2024		632
2025		949

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULE SEPTEMBER 30, 2021

BUDGETARY DATA

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to the beginning of the fiscal year, the City prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the City Council is then called for the purpose of adopting the proposed budget. At least 10 days public notice of the meeting must have been given.
- c. Prior to the start of the fiscal year, the budget is legally enacted through passage of a resolution by the City Council.

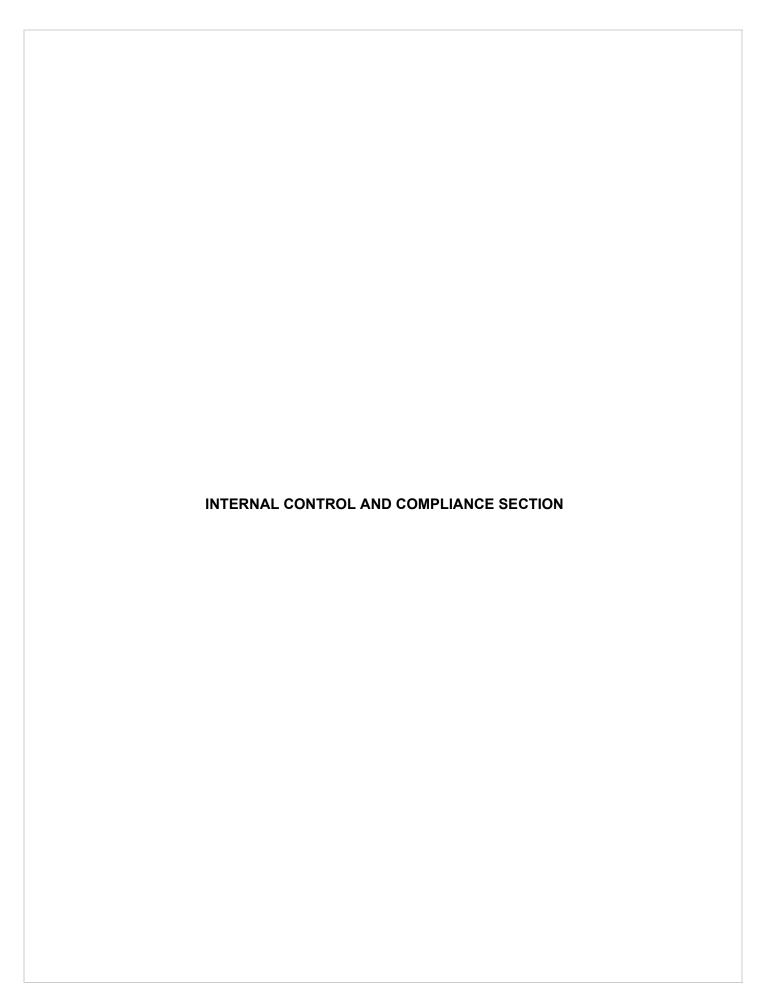

Once a budget is approved, it can be amended only by approval of a majority of the members of the City Council. As required by law, such amendments that are made before the fact are reflected in the official minutes of the City Council and are not made after fiscal year end. The legal level of control is at the function level. All budget appropriations lapse at year end.

The budget is presented on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

Annual budgets were adopted for the general fund.

EXCESS EXPENDITURES OVER APPROPRIATIONS

The excess expenditures over appropriations are covered by available unassigned fund balance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

Honorable Royking Potter, Mayor and Members of the City Council City of Shallowater, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of City of Shallowater, Texas (the City), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated February 7, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Shallowater, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
